

How to make the Yellow dress white.

Remember, how you do depends on the original color.
You have to try different things to get it white.
This is how I did to get this yellow dress white.

- 1 Hue/Saturation (Master -100)
- 2 Color Balance (Midtones Yellow -33)
- 3 Levels (0 - 2,65 - 255)
- 4 Color Fill White, (Blend mode Soft Light)

Then shadow and lights up the dress with dodge & Burn
